Your Outdoor Room

Greet Deep Forces of Nature
with Peace of Mind

**INNOVATIVE /
PANEL ROTATION**

The motorized roof consists of rotatable aluminium panels. Palmiye's revolutionary design allows the panels at any angle up to 120 degrees seamlessly manner.

End-Point-Centered Rotation

This special rotating technology with its distinguished features provides many advantages like integrity, stability and sealing by means of end-point-centered operating structure and high pressured power system.

**INTEGRATED
PANEL GUTTER**

Stay Clean

The elliptical chamber on top side of the panel prevents the accumulated materials falling into your indoor space during the panel rotation.

INTEGRATED BEAM & DRAINAGE SYSTEM

The integrated beam is the main carcass of the whole Skyroof system. All loads are shared equally to its structure. It also features as integrated gutter for drainage system.

Distribution Pieces

The distribution pieces route and accelerate the water through the pillars.

Water Blocking Barrier

The barrier blocks water to run inside the air tunnels.

Integrated Drainage System

The hidden section of the drainage system is ingeniously integrated.

Specially designed aluminum panels guide the water through integrated gutters on all sides.

Water evacuates from the Integrated Beam.

MULTI-SEALING SYSTEM

Powered by an electric motor and sealed with high quality gasket plugs, providing a completely airtight space which can be used in all weather conditions.

Base
Gasket

Air Tunnels

The panel structure provides heat and sound insulation and reduces condensation levels due to the thermal break.

HIGH PRESSURE CLOSING FUNCTION

Songs of power of the plane
flaps come alive with Skyroof.
Linear actuator system provides
you to isolate your spaces
against severe weather.

SIDE COVER OPTIONS

For environmental protection or to create outdoor living areas used throughout four seasons, Skyroof sides can be covered by glass, vertical blinds, and aluminium panels.

Blinds and Awnings

Louvers

Glass Systems

A woman's profile is shown in a dramatic, high-contrast lighting scheme. The left side of her face and hair are illuminated with a cool blue light, while the right side and the background are bathed in a warm, vibrant red light. She has long, dark hair and is looking off to the side with a serene expression. The overall mood is artistic and futuristic.

CLIMATE /
CONTROL

Insulated Panels

Panels can be filled with Polyurethane Foam which provides extra comfort. It significantly helps to reduce condensation.

Standard

Insulated

A modern outdoor patio at night. The patio has a blue slatted roof with integrated linear lighting. The walls are also made of blue slats. In the foreground, there is a wooden table with various decorative items, including potted cacti, a large rock, and a bowl. In the background, there is a swimming pool and a garden with trees and a small building.

LIGHTING OPTIONS

Integrated lighting
systems can
be dimmed to
create the perfect
ambiance.

PERIMETER LIGHTING

- › LED strips are integrated into the gutter profile.
- › Available on both series.

LINEAR LIGHTING

- › LED lightings are modules are positioned into the blades.
- › Plus series only.

COLOUR / OPTIONS

Choose your colour or colour combinations (dual colour). We coat our profiles with electrostatic powder painting using advanced Nanotechnology.

REMOTE CONTROL

Using RTS technology,
the motors can be
operated with a single
touch of a button.

MODULARITY

SKYROOF offers a wide variety of modular construction possibilities by means of its flexible and compact structural design.
